

PHASE ONE:

Few automotive marques are so iconic or have such a faithful following as Land Rover.

The classic Defender is nothing less than the stuff of legend, whilst the original two door Range Rover CSK has become a highly collectible rarity. A number of bespoke engineering companies have taken these vehicles as far as is possible within their inherent design limits, and the supply of classic

Defenders and Range Rovers in appropriate condition is dwindling rapidly.

Williamdale has re-invented both, creating vehicles that look 'more like the original than the original' whilst opening up performance and reliability improvements previously not imagined.

Williamdale's Defender re-creation is called BRABINGER.

The re-imagination of the classic Range Rover CSK is called CARLSON

Classic appeal. Modern ability. Future performance. Timeless.

Williamdale///004-Carlson>

Williamdale///003-Brabinger>

BRABINGER

- All-new – not a 'restomod'
- 1,000 – 1,850 BHP
- ICE and EV variants
- Full carbon fibre body
- Competition-derived chassis and suspension
- Full FIA 'inside-outside' safety cage
- Larger, lighter and stronger

The greatest Defender that was never built
...until now

Pictured variant: 110 DCX PICK-UP

Land Rover Classic Defender 110

Williamdale///003-Brabinger>

Identical at a glance but bigger where it counts.

Brabinger chassis: Independent air suspension

Brabinger 110 DCX dimensions.
